EXPERIENCE

2018 - ...

Fullstack Developer Nurun

Maintain existing websites (Drupal, Craft CMS, Wordpress, AngularJS, PHP and HMTL/CSS (SASS)).

Implement tools to optimize and speed up the development process.

Mentor and support junior developers and help to enhance best coding practice within the team.

Achievement: promote the importance of Web Accessibility (WCAG 2.0) and actively participate to put in place documentation and guidelines for developers to refer when needed.

2017 - 2018

Web Developer Leadweb

Develop web and mobile applications with focus on user experience (Angular 5, NativeScript, PHP and HMTL/CSS (SASS)).

Define technical client requirements, evaluate solution complexity and estimate required development time for every feature.

Achievement: design the documentation standard used in projects developed within the company.

2016

IT Project Coordinator (4 months internship) HEC

Perform tasks such as analysis of anticipated risks and benefits, preparation of budget controls and detailed project planning (JIRA, SharePoint, MS Project).

Achievement: reduce the suppliers payment process by one day to minimize late payments.

2014 - 2016

Web Developer Vidéotron

Develop a geolocation application to be consulted for planning wireless network optimization activities (AngularJS, JavaScript, PHP, PostgreSQL et HTML/CSS).

Achievement: lead the development of an internal application used to share network antennas parameters' between Vidéotron and Rogers.

2012 - 2013

Web Integrator Nurun

Integrate automobile dealership websites according to the PSD models provided (PHP, JavaScript, JQuery et HTML/CSS).

Achievement: implement a code review process.
